GLP ?: No.

SITES: Structures
PESTS: Termites

STUDY SUMMARY:

The registrant submitted interim data for their EUP studying the efficaciousness of two Noviflumuron bait formulations. The gel termite baits are formulations of 0.25% and 0.5% a.i. in composition. Progress toward completion of the EUP in April 2005 was included.

The data were not reviewed. The submitted data will be retained and compared to the data submitted upon completion of the EUP.
